## Rigid Mount, Fast Spin Washers

Machines in the WFH range are ideal for the highest contamination risk sites such as hospitals, care homes, veterinary surgeries and stables. They meet NHS Guidelines HSG 95(18) and Category 5 of the latest Water Regulations and comply with the National Minimum Care Standards.

### Features

Built in Type 'A' Air Gap

Micro 20 controlled

Information display

Fast, economical cycles

High build quality

Extra large door (IPSO 40)

Simple to use

Liquid soap injection control board

Inverter Control

### Benefits

Fully approved for direct connection to mains water, resulting in lower installation costs - no storage tank required

Easy to use, reducing the likelihood of user error and keeping maintenance costs to a minimum

Customised wash cycles to suit individuals needs

Displays minutes remaining until the end of cycle enabling more efficient use of staff time

Displays cycle selected and operating temperature

More loads per day means more income

Robust and reliable. Stainless steel cabinet and drum. Secured to metal or concrete plinth to remove all vibration

Easy to load and unload very big and bulky items such as king sized duvets

There are just three stages to starting the 'A' series: choose the appropriate wash programme, select economy button if required and push to start

Easy connection to auto-dosing pump system

All machines now have inverter controls as standard and can operate on single phase
